THE ANNUAL RING

SCHOOL OF FORESTRY
LOUISIANA STATE UNIVERSITY

THE ANNUAL RING

SCHOOL OF FORESTRY
LOUISIANA STATE UNIVERSITY

DEDICATION . . . THE NEW BUILDING

In an effort to emphasize the growth and development that is taking place in the School of Forestry we proudly and gratefully dedicate this 1956 ANNUAL RING to the new School of Forestry building and to the following who helped in obtaining it.

The alumni who, through persistent effort, persuaded the University administration and the legislature to appropriate funds for the new building.

Ralph W. Hayes who drew up preliminary plans and greatly assisted in procuring panelling and in all subsequent phases of construction.

The thirty-five members of the forest industry who lightened the financial load and contributed immeasurably to the beauty of the building by donating the many different kinds of wood panelling.

The many other friends of the School who directly or indirectly helped us obtain a building which reflects the importance of the industry it serves.

FOREWORD . . .

In this publication we have tried not to follow too closely the pattern set by the preceding ANNUAL RINGS. The articles may not have a professional sound to them, but they are our own sincere expressions of what few ideas we have.

In writing this foreword there seem to be just two important things to bring out. The first one is to thank everyone for their help and cooperation, especially the advertisers, without whom this publication would not have been possible. The second one is to express on behalf of the entire staff, our hopes that everyone will find something of interest or maybe even of some importance within these pages. So without further ado, we present the 17th edition of THE ANNUAL RING.

THE DIRECTOR'S MESSAGE

The outstanding development in forestry at L.S.U. during the past year has been the erection of a new School of Forestry building on the campus. The presence of this new structure has called attention to the School, and forestry students and faculty feel that the eyes of the University are upon us as never before in the history of the School.

The building is attractive, both inside and out. The extensive use of many different species of wood in the interior as panelling is unique. It must be seen to be fully appreciated. We feel that the Forestry Building is one of the major showplaces of the campus. In addition to its beauty, the building is highly functional; there is ample space for teaching and research.

Not inferior to the thrill of having such a fine building is the knowledge that the School of Forestry is well supported by its alumni and by forestry and game organizations in Louisiana. Alumni and friends of the School contributed generously of their time and energies in securing donations of wood panelling. In addition, 35 forest industries in Louisiana and neighboring states contributed panelling or other materials for the building. Without their splendid cooperation, it would not have been possible to have the many species that make the interior so unique and so attractive.

Our enrollment has increased to almost 150 students. The quality of the graduates continues to be high. During the year we added some new faculty members. Professor Charles B. Briscoe, with two degrees from L.S.U., came in June, 1955. Professor William C. Hopkins, M.F. Yale '41, also was added in June. James L. Chamberlain, M.S. University of Massachusetts, began full-time research work in July, 1955, in marsh game management. Professor M. B. Applequist left in September, 1955, for a year's sabbatical leave; he was replaced for the first semester by Cedric T. Sidney and for the second semester by Thomas Hansbrough, B.S.F. L.S.U. '49.

The School pioneered this year in extension forestry teaching. At the request of a group of foresters in southeastern Louisiana, Professor Crow began offering a graduate course for credit in silviculture, taught in Bogalusa.

During the year I became personally acquainted with many L.S.U. forestry alumni, in the course of my travels within the state and to meetings of foresters outside Louisiana. I hope to meet more alumni during the coming year, and I especially look forward to alumni visits to the campus.

ORGANIZATIONS

SOCIETY OF FORESTERS

FROM LEFT TO RIGHT:

<i>President</i>	RODNEY FOIL	<i>Athletic Director</i>	GABE M. PURVIS
<i>Vice-President</i>	HAROLD ELLIOTT	<i>Reporter</i>	CLIFF LOGAN
<i>Sgt. at Arms</i>	GLENN BRINKMAN	<i>Secretary</i>	JAMES E. MAXWELL

As the official student organization of the School of Forestry, the L.S.U. Society of Foresters has continued to be an integral part of a forestry education at L.S.U.

At the outset of the year, the Society was instrumental in straightening out insurance difficulties brought about by misunderstanding of university policy, thus saving forestry students several hundred dollars. At the beginning of the fall semester an all out effort was made by members of the Society to orient freshmen and transfers in an attempt to reduce mortality among students. Each embryo forester was "adopted" by an upperclassman, who endeavored to advise and console his "little brother" in matters pertinent to weathering the freshman storm.

As usual, bi-monthly meetings were held, with a host of informative and educational speakers being called upon. Many prominent alumni consented to give the benefit of their experience to the interested audiences.

The Society continued to be prominent in campus politics and can list as members the president of the College of Agriculture, president of Ag Council, president of Ag Fair Association, president of the senior class of the College of Agriculture, several officers of Alpha Zeta and Ag Fair, and others. At the close of last year, the Society was awarded a plaque in recognition of its activity in the Ag Fair Association, and is expected to repeat this year. Soft drink sales at the spring rodeo were continued, with the foresters running a close second in money earned. In an attempt to raise additional funds this year, the Society collected mistletoe and pine cones to be sold at the Kiwanis Christmas tree sale, and were fairly successful.

As could be expected, interest in the new forestry building was high among students, especially after it was decided that one room could be allotted as a lounge or recreation room. The Society, with the cooperation of the faculty, is undertaking the furnishing of said room at present.

Social events and recreation were not forgotten in the Society program this year, with several affairs presented for the enjoyment of members. The Council Ring at the first of the year started the program, followed by Field Day, several informal gatherings, and a spring fish fry.

XI SIGMA PI

Forester BILL TRFWOLLA

Ranger GABE M. PURVIS

Assistant Forester JAMES H. GUENARD

Secretary and Fiscal Agent FREDDIE JORDAN

The Nu Chapter of Xi Sigma Pi, national honorary forestry fraternity, is in its fifteenth year at L.S.U. and is fully active with a membership of outstanding students.

Xi Sigma Pi membership is coveted by second semester juniors and seniors of the school of forestry, because it marks outstanding character and ability of a future forester.

In an effort to create interest in forestry, Xi Sigma Pi sponsors an award each year to the outstanding forestry sophomore of the previous year. Among other activities the fraternity cooperates with the L.S.U. Society of Foresters in freshman orientation and maintains the L.S.U. Forestry Alumni Location Map. The highlight of the years activity is the banquet held in the spring after selection of new members.

Chosen for scholarship, leadership, and interest in forestry, the men of Xi Sigma Pi exhibit the outstanding qualities and characteristics that will add to the forestry profession in the future.

Bill Trewolla presents the Outstanding Sophomore award to Glenn Brinkman.

OUTSTANDING SOPHOMORE

Each year at the fall convocation of the College of Agriculture, Nu Chapter of Xi Sigma Pi, national honorary forestry fraternity, sponsors an award to the outstanding forestry sophomore of the previous year. The recipient's name is burned into the "Old Cedar Log" in the forestry school lounge and he receives a certificate and recognition at the convocation.

Chosen for scholarship, leadership, and interest in forestry as a profession, Glenn Brinkman received the well-earned award this year.

A major in forest production and a member of Alpha Zeta, national honorary agricultural fraternity, Glenn is usually found around the forestry building or nursery working for one of the profs and wearing his usual grin. His home is Pascagoula, Mississippi, and he attended a junior college in Mississippi after he graduated from Pascagoula High in 1953. Coming to L.S.U. in his sophomore year, he proved himself and his ability that won him a place as a Society of Foresters officer and this award.

Our congratulations go to Glenn Brinkman, outstanding forestry sophomore.

FORESTRY WIVES... THE PINETTES

In the Fall of 1955, a new club, which later came to be known as the "PINETTES," was formed. This club consists of the wives of L.S.U. Forestry students and was organized through the combined efforts of Mrs. Paul Y. Burns and Mrs. William C. Hopkins.

The primary purpose of this club is to help the wives of future Foresters become more closely associated with the forestry profession. Monthly meetings are held and guest speakers are asked to give informative talks concerning Forestry. Secondary purposes include opportunities for social gatherings and to enable the wives of the students to become acquainted with the wives of the faculty.

Since their formation, the Pinettes have given a dinner at the home of Dr. and Mrs. Burns, seen a very interesting slide program by Dr. Burns, and were given a thorough tour through the new building by Mr. Hopkins.

It is hoped that the Pinettes will continue to function as successfully in the future as they have since their organization, and will remain as a permanent, congenial group to welcome new Forestry wives into the fold.

ATHLETICS

The L.S.U. Society of Foresters had a busy athletic year, fielding teams in three campus sports and competing in an outside softball league.

Activity began last year at Summer Camp when the Foresters entered a softball team in the Franklinton Recreation League and swept through an eight-game schedule undefeated. Teams from Louisiana Natural Gas, Louisiana National Guard and a community team comprised the league. Lenin Murray and Arden French, Jr., were the standouts for the softballers. Murray pitched 8 games, winning all of them while French showed up well in the hitting and fielding departments. Highlight of the season was Murray's no-hit effort in the Society's first game.

Came the campus football season and the Foresters really did shine. Playing in a tough, four-bracket league, the Society won brackets 1 and 2 but lost out in the championship finale to the Two-Toney Tigers, 13-0. The Foresters defeated the Dairy Club 28-0, won over the Sooners, 12-0, and took a forfeit decision from the Block and Bridle club. They were beaten 13-7 by the Seagram Sevens, however, and were forced to playoff for the title of bracket 1. In playoff contests, the Foresters bested the Seagrams on penetrations and the Sooners by a 2-0 count. In the semifinal game the Wesley Foundation fell to the Society, 7-0. In the championship game, the Two-Toneys just had too many guns.

Plato Touliatos and Bill Trewolla, husky linemen for the Foresters, played good steady defensive ball all season. There were no particular standouts for the offensive team, and all the men worked well together.

The rugged football season must have taken a lot out of the boys because they just couldn't get going in the campus basketball league. They dropped successive games to the Block and Bridle Club and the Rednecks before getting their eyes on the basket. When they did though, they got hot and registered wins over the F-2 Codgers and the Dairy Club. Pivot-man Vince Whatley was the bright light in a rather dark season. The team played well and showed lots of hustle, despite being out of shape everybody knew the Foresters were in the league when they hit their stride.

With the campus softball season ready to get underway, the Society has nothing but an optimistic outlook. Most of the boys who went through an undefeated season in the Summer Camp Franklinton League will be on hand to strengthen the Foresters' position in the spring campus league. Lenin Murray, last year's hurling ace, has looked good in pre-season warm-ups and should be ready to go. The other positions give promise of being capably filled.

Good Luck Foresters!

SUMMER CAMP

SUMMER CAMP—1955

It was a great day on Sunday, May 29, 1955, when the embryo foresters from L.S.U. congregated at the famed L.S.U. Summer Resort and Proving Grounds. Thirty pupils were about to undergo an experience that none had seen before. Except for Friday test days, I believe everyone thoroughly enjoyed summer camp.

The first week began with Dendro and Prof. Apple having the starring role. After Dr. Burns laid the laws down, we took in a sightseeing tour of the Lee Memorial Forest. Prof. Glasgow and his game boys got lost for 30 minutes while looking for game food and cover. "Boom" Blaylock was the first casualty of the camp. This was credited to the "Demon," who skillfully removed the nail from Bob's big toe with a well placed boot heel.

Our last trip of the week was to the Pearl River swamp, where the river rose two feet after four or five guys were persuaded to take a morning dip. "Demon," Gabe, Crocker, and "Gee" burst into the crowd grasping anyone they could catch. The slow unfortunate one was Prof. Apple. The others quickly scattered through the swamp while Prof. Glasgow bravely remained behind focusing his camera on the incident.

The first week ended with a bang! The bang being the hardest Dendro test ever taken by this group. Prof. Apple was trying to leave a memory with us, for next week he was to go to Duke University for two years in order to get his Ph.D. in forestry.

The old married men left us bachelors in a pool of dust as they took off home to see their "bosses." The last to leave was the "Green Latrine" piloted by Sir Francis, off to meet his widow woman in Baton Rouge.

The second week, Aerial Photography or A.P., started on Sunday rather than on Monday. Dr. Burns left word that a quiz would be given every morning at 8 o'clock. So the mid-night oil was burned again for the second straight week. Besides this, six speeches were given daily by this group pertaining to the subject of A.P.

The grind didn't last: thanks to Prof. Glasgow. He said that you should get out

and play softball and volleyball and not waste all your time on study. This was music to our ears. It was almost broken up though when "Wildman" James crippled up "Demon," terrified the umpire (Dr. Burns), and sent "Clife" to the Medical Center with a broken thumb. Coach "Thumbs" stepped in and gave "Fireball" Murray the rest of the pitching details.

A new coke machine added much pleasure and delight to our days' work. The "Thumper" was put in charge of the machine so the sales went sky-high. Although he had to purchase half of them himself. A used washing machine was bought by the Society of Foresters in order that the present and future campers may save money on their laundry. Many of the Saturday and Sunday evenings were spent at this chore.

The third and fourth weeks of camp were taken over by Prof. Crow and he was assisted by Prof. Apple. The call of "cut, cut, leave" was heard throughout the woods for two weeks.

Prof. Apple, who picked up the nickname of "Farkleberry," took over the T.S.I. work and the task of measuring P. C. Wakely's experimental plots just outside of Bug City. "Falstaff" Miller tried to get out of work by almost cutting his foot off, but it was bandaged up and he was put back into the woods with his favorite tool—the little beaver.

The horseshoes disappeared during this time and Jerry Prescott, Robert Chabreck, Buford Smith, and "Vedo" Varnado were searching around camp like they had lost their best friends.

Some of the boys found a new place to go on Saturday night besides to the Huddle or the Flick. Buzz Guenard, Pop Henson, Gee Norton, F. M. Jordan, "Dickie" Crocker, "Clife" Logan, and "A thru G" Watley were caught playing "Wink" with a bunch of young fillies from Bogalusa.

A. O. French, "Rimp," "Boom," and "Thumbs" went deep sea fishing with Paul James down on the Gulf Coast, but the only one who caught any fish was lucky A. O.

The fifth and sixth weeks of camp were examples of what a forester has to go

SUMMER CAMP SNAPSHOTS

through. Prof. Briscoe showed the young foresters what a stem analysis study consisted of. The school of forestry almost lost a few promising foresters during that two weeks. Probably would have if the Fourth of July holidays hadn't rolled around just in the nick of time.

A new poem was originated by "Booze Gonad" to break up the monotony. It reads:

"The firecracker blew,
The soot flew,
And "Rimp" couldn't see for a
week or two."

During those two weeks of mensuration, every tree on the Lee Memorial Forest was marked and tallied for volume. It took two weeks to compile the data. But

that wasn't all, the shaft was sunk deeper when Prof. Briscoe gave one of his blood curdling tests.

Pop Henson and F. M. Jordon couldn't sleep that Saturday night so they took their bottle of mouth wash and went for a mid-night stroll. They brought home a new mascot: "Pepe La Pew" the baby skunk.

Prof. McDermid arrived Sunday night in order to get the troops ready for engineering week. Prof. Hopkins came with him to act as camp director. It started raining this week and it didn't stop until Prof. McDermid left at the close of camp. This is how he acquired the name of "Chief Blackcloud." But there was no bitch from any of the troops when "Raymond" showed his power.

Engineering week found the troops running land lines, traverse and plane table surveys, and abney and traverse level surveys. Many heated discussions were raised, but fortunately there were no casualties. On Friday, Prof. McDermid sent each trooper in a different direction to locate a 20 acre plot and to cruise it. Everyone managed to make it in by 3 o'clock. But that wasn't the end yet; we had to take a test with all types of "McDermid Special" problems on it.

Logging week was a very busy and interesting week. The troop was divided into two groups. Group A ran the sawmill while Group B supplied the logs. Both expeditions were directed by Profs. McDermid, Hopkins, and Briscoe. Mr. Putnam, the hardwood specialist, came down to give the mill operators a few pointers on log grading. During this week, some of the highest grade slabs and sawdust ever produced was made at the "L.S.U. Pine Knot & Slab Mill."

The troops entertained the L.S.U. forestry graduates working for Gaylord. The best meal served yet was enjoyed by all. Each forester gave a talk on Gaylord practices and what they expect of their foresters. After the last talk, the troops headed for Pushpatapa Creek, where the biggest bust ever to exist in Washington Parish took place. After refreshing drinks were poured, the attendants participated in such games as "Buzz, tree chopping, tree climbing, and swimming." Gee Norton

won the buzz and swimming awards, "Curly Wolf" Green took the tree climbing prize, and "Injun Jim" McConnell swept up the tree chopping honors. The results of the party were seen the next morning by the moans and groans of the troops and the complete girdling of the black oak that stood in front of the bunk house. The mystery is still unsolved.

The last week was spent on road construction and improvements. One of the projects constructed during this week was "Red Ass" bridge. It was engineered and dedicated by "Nitro" and crew.

Prof. McDermid's and Prof. Hopkins's families were guests at the camp during this last week. We enjoyed having them, but most of us didn't know how to act with girls around the house. Everything went off fairly smoothly though.

"Killer" Trewolla brought back his Cadillac and it was kept on the road taking troopers back and forth to Franklinton and Bug City. The last ball game was held in Franklinton this week and the Foresters won the league pennant. "Gummy" Murray went undefeated in eight games, pitching several shutouts.

Friday morning, the boy foresters journeyed to Laurel, Mississippi, where they toured the Masonite and Mengel Companies. After 3 o'clock the troopers went their separate ways home to freedom. The "Dags" was stopped short of his freedom by a Mississippi trooper just outside of Poplarville. So several of us went to a shotgun court before heading for home.

SUMMER CAMP SNAPSHOTS

FIELD DAY 1955

Field day got off to an unusual start this year due to the fact that the gate to Camp Garrison was locked. But "leave it never be said" that the boy foresters ever had a dull time while waiting. Quickly their nimble brains devised a game of accuracy, whereby rocks were thrown at fence posts, trees, squirrels, and various other objects along the road. Although there were no prizes given for this game of skill, a good time was had by all.

When the key finally arrived, field day got off to its usual fast, light-spirited pace with the elimination games in football and volleyball between the different classes.

After this came the initiation of the Sophomores into the "Society." This proved to be a huge success, especially the magnificent demonstration of fire fighting by Billy Bond, who defeated all who dared compete with him.

Next, came lunch time, and you've never seen so much barbecue and so many cold drinks go as fast in all your life. The remainder of the afternoon was spent playing games and:

HERE'S TO THE WINNERS!

FOOTBALL: (or as this classic has come to be called "THE TOILET BOWL").

The *Seniors* barely squeaked past the Freshmen to take this highly prized event.

VOLLEYBALL:

The *Juniors* breezed to an easy win in this contest.

For the other events prizes were awarded and these prizes get bigger and better every year.

TREE CLIMBING:

Huey P. Lizana won a 3-cell flashlight donated by Peerless Supply Company, Shreveport, La.

CHOPPING:

Gabe Purvis won a Doric Lettering set donated by Keuffel & Esser Company.

TIMBER ESTIMATING:

"*Lefty*" *Schwartz* won a Lufkin Diameter Tape donated by the Lufkin Rule Company.

PACING:

A tie—*Varnado* and *James* both won wedge prisms courtesy of Forestry Suppliers, Inc., Jackson, Miss.

TOBACCO SPITTING:

Won for the second year in a row by *Robert Chabreck*. His prize — a Panama Angle Gauge, courtesy of Forestry Suppliers.

GRAND CHAMPION:

A new award this year, won by *Robert Chabreck*. The prize—a Voyager Compass courtesy of Silva, Inc.

Our thanks go to the companies who donated the prizes which inspired the boys to such great efforts in the various contests.

FIELD DAY SNAPSHOTS

1. *Flying chips*
2. *A spittin' good time*
3. *A good cigar is worth fighting for*

4. *Practicing*
5. *The chow was worth it*
6. *What's up?*

Homecoming started as a gala affair, with much back-slapping and hand shaking among old grads who hadn't seen each other for years. The gathering and business meeting took place in the basement of Knapp Hall. A point worthy of mention is that this will be the last Homecoming to be held here, since the new School of Forestry building will be in use next year.

Rodney Foil served as receptionist and invited everyone to have coffee which was furnished by the Society of Foresters.

The business meeting which was opened by the President of the Alumni Association, John W. Squires, proved to be

an interesting and fast moving session. Dr. Burns gave a full report on the activities of the School of Forestry for the past year, members, progress of the Forestry building, activities of the students, and so on.

The highlight of the meeting was the election of Mr. R. J. Freshwater as President of the Alumni Association for the coming year.

Below are shown some of the more hardy individuals who were not afraid to face the camera and have their likeness recorded for posterity. The Annual Ring wishes to thank each and every Alumnus for his donation and cooperation.

1. *John Barnett*—Class 1940
2. *Robert T. Carter*—Class 1950

LAB SHOTS

ALUMNI NEWS

CLASS OF 1951

JAMES BUILTEMAN is living at 1011½ Hackberry Street, Nacogdoches, Texas, with his wife and son, Jim. He is a Conservation Forester for International Paper Co.

GEORGE B. COLTHARP is now at Michigan State University employed as a graduate research assistant. He is working toward a Ph.D. in Forest Hydrology while he is on a half time hydrologic research assistantship. George received his Master of Science Degree in Watershed Management from Colorado A&M College in August of 1955. He resides at 804 Apt. 205 Cherry Lane, East Lansing, Michigan, with his wife (known to many alumni as Bobbie McGehee) and Susan Lee, their 15 month old daughter.

GERALD L. REYNOLDS lives at 2709 Henley Dr., Memphis, Tenn., and is Assistant Procurement Manager for Koppers Company, Inc. His job consists of procurement of crossties, switch ties, poles, piling, lumber, posts, and supervision of field buyers. The Memphis office manages about 150,000 acres which are located in Tenn., Ky., Mo., Ark., La., Miss., and Ala. which accounts for much of Gerald's time. Koppers has procurement points in the above listed states and also in Illinois, and Gerald would like to hear from fellow Foresters that have forest products for sale.

MORRIS L. TINDELL works out of Winnsboro, La., as Assistant District Forester for the Southern Forestry Commission. He recently returned from a two-year tour in the Air Force and is glad to be back in forestry work. His work involves timber management, fire control and information and education work. Morris is married and his home is in Newellton, La.

DONALD D. COUVILLION is a 1st Lt. in the Air Force and is an all-weather interceptor pilot with the 18th Fighter Interceptor Sqd. Don is at Ladd Air Force Base, Fairbanks, Alaska, where the 18th is one of the three F-89D all-weather squadrons assigned to guard the outer-most air defense perimeter of the U. S. Flights north of the Arctic Circle are common

here and Alaskan duty as an all-weather pilot has been far from dull. Don is looking forward to stateside duty again by March, 1956, since he has no wife to keep him warm at night.

ROBERT E. MURRY received his BSF in 1951 and MS in Game Management in 1952. He is employed by La. Wild Life and Fisheries Commission and he does quail research and acts as District Biologist. He and his family live at 2302 Seventh St., Leesville, La. He has two children, Robert, Jr., age 4, and Marilyn, age 2½.

EARVIN A. HOLLOMAN is a District Forester for the Masonite Corporation. He lives in Collins, Miss., with his wife and two children, Sherry and Mickey.

THOMAS E. CAMPBELL is with A. J. Hodges Industries, Inc., Many, La. He is doing research work in forest genetics and tree improvement, both in air conditioned greenhouses and on the ground. This involves controlled pollination of southern pines, grafting, and rooting pine cuttings. He works in cooperation with Dr. Bruce Zoble, Texas Forest Service and Philip C. Wakely, Southern Forest Experimental Station, New Orleans. Thomas is also conducting Fish and Wildlife Research in cooperation with Dr. Bateman and Mr. Glasgow of L.S.U.

He is married and has one boy 2 years old. They live in Many, La.

CLASS OF 1946

MR. JAMES I. RITCHIE resides at 1407 Clifton Lane in Nashville, Tenn., and is now manager of Sales, Advertising and Public Relations for Trans American Oil Company. His jobs from graduation to the present were: District Forester, Assistant Chief Fire Control, and Forest Superintendent of Louisiana Forestry Commission in that order from 1946 to 1952. He decided to see how the other half lived and ended up in the oil business. From Forestry he went to Regional Representative of National Highway Users Conference, Washington, D.C., and next to Executive Secretary of Tenn. Oil Men's Association

ALUMNI PICTURES

1. J. Walter Myers, Jr.—B.S.F., L.S.U. 41, MF 51
2. James Randolph Myers, age 3½
3. Robert Edward Myers, age 1½

4. The Buitteman family
5. Mrs. George B. Coltharp and Susan Lee Coltharp
6. Sherry and Mickey Holloman

of Nashville. He is married and has two children, ages 8 and 4 years. Mr. Ritchie is a Mason and Shriner, Charter Member of La. Forestry Assn. to date, and a member of the Society of American Foresters in the Ky. and Tenn. section.

CLASS OF 1941

MR. PETER P. BUESCHER, now living in Jackson, Miss., is operations manager for Residential Construction, employed by J. W. Underwood and Co., Jackson, Miss. He and his wife were married in 1947 and live with their three children, ages 6, 3 and 1, at 4175 Plaza Street.

MR. J. WALTER MYERS, JR., received his BSF in 1941 and later his MF in 1951. He is the Executive Director for the Forest Farmers Association, which is an organization of timberland owners in 15 southern states, who own 50,000,000 acres of timberland. He lives at 66-11th St., Box 7284, Stat. C., Atlanta, Ga., with his wife and 2 sons, ages 3½ years and 20 months. Mr. Myers is Editor of Forest Farmer, a monthly magazine, and Asst. Legislative Representative before the National Congress.

MR. JOSEPH E. WEATHERLY, JR., is now Deputy State Forester for the Mississippi Forestry Commission. He is married and has a boy and a girl. They live at 334 Audubon Drive, Jackson, Miss.

MR. CHARLES W. ROBERTSON is working with the Woodlands Dept. of International Paper Co. out of Panama City, Fla. His work is promoting good forestry

practice among private land owners. He works in Georgia, Florida and Alabama and sometimes runs into L.S.U. graduates on his rounds. He is married and with his wife and three children resides at 1004 West 9th St., Panama City, Fla.

CLASS OF 1936

MR. JAMES E. MIXON is now State Forester for the La. Forestry Commission and heads the administration. He and his wife and two daughters reside at 9036 So. River Oaks Dr., Baton Rouge, La. His headquarters is in Baton Rouge and his business address is Box 1269.

CLASS OF 1931

WILLIAM P. ADAMS is now residing at 1548 Marshal Drive in Baton Rouge, La. He is representative and manager of the Baton Rouge Claims Service, Inc. Previous to his present field, he was with the U.S. Forest Service until he went into the Army. In 1945 he returned to the Forest Service but resigned to go into the Insurance Loss and Adjustment business, which he finds fascinating. Mr. Adams is married and has four children, ages 21, 17, 14, and 4.

MR. A. J. ST. DIZIER left the profession of Forestry and is now the principal of Lake Charles High School. He resides at 154 Moss St., with his wife and three children, Unnetti, age 17, Tommy, age 5, and Charles, age 12.

MR. FRANCIS AUDLEY SMITH is Retail Distributor for the Arkansas Fuel Oil Corp. He and his wife and their five children reside at New Roads, La.

Eye Crossett as Your Goal for Placement!

Your college training may be your signal to try for placement
in this expanding industrial center built on Arkansas' forests.

At Crossett you'll see lumber, paper, chemicals . . .
each the product of a major enterprise.

Beyond these is the forest, with perpetual
growth under scientific forest management.

Your interest in placement will be welcomed
by our Personnel Division.

To L.S.U. Forestry Graduates

. . . . our congratulations and
best wishes For Your Success In Your Chosen Profession.

It is with pardonable pride that we, here at Gulf States Paper Corporation, consider ourselves a part of Louisiana State University's School of Forestry, for there are five Foresters from its school affiliated with us; each one conscious that Applied Forestry is essential to the economy and security of the nation; each one practicing his profession diligently to help develop, protect and manage our country's forest industry which affords job security and a better way of life for thousands of our people.

We Are Proud To Have In Our Forestry Division The Following L.S.U. Alumni:

R. VANCE MILES, JR., '32—Manager, Division of Forestry and Public Relations

JOHN C. KIRKPATRICK, '38—Director, Forest Development Department

THOMAS W. MARSHALL, '49—Assistant District Forester

CHARLES E. BROWN, '50—Purchasing Agent, Procurement Department

WILLIAM B. BLACK, Ex. '51 - API '51—Forest Research Analyst

TREES FOR TOMORROW

Trees for tomorrow — trees for America — mean jobs for today, tomorrow and for generations to come. Opportunities for our young Americans in the expanding realm of forest products can be as limitless as the capacity of our woodlands for growing continuing crops of trees.

**OLIN MATHIESON
CHEMICAL CORPORATION**

WEST MONROE, LA.

Expensive specialized equipment such as this reflects the recognition and appreciation of our ever increasing forest values by Louisiana's largest employer — the forest industries.

Louisiana's forest industries contribute tremendously to the suppression of our forest's most terrible enemy — FIRE.

**ALLIS-CHALMERS EQUIPMENT HELPS
THE LUMBER INDUSTRY PRODUCE
MORE . . . FASTER, BETTER AND
AT LOWER COST**

Allis-Chalmers builds four crawler tractors and tractor shovels from 45 to 204 hp; three motor graders from 50 to 120 hp; five diesel power units from 12 to 197 hp; two gasoline power units from 28.4 to 50 hp — plus a complete line of matched logging equipment.

CONSTRUCTION MACHINERY DIVISION, MILWAUKEE 1, WISCONSIN

Tractors for yarding and skidding logs, building roads, clearing landings, cutting fire lanes.

Motor graders for building and maintaining truck haul roads, maintaining fire lanes, leveling camp sites.

Tractor shovels with attachments for loading and handling logs and finished lumber, handling variety of maintenance jobs in the woods or at the mill.

ALLIS-CHALMERS

Can We Meet the Challenge?

Studies by the Stanford Research Institute indicate a pine drain in the South of approximately 53 million cords by 1975. The quantity is approximately 70% of the potential growth as estimated by the Forest Service. Present growth (1952 estimate) is 42 million cords or 55% of capacity.

Barely to equal drain, growth of our pine forests must be increased 15% in the next 20 year period.

This is a worthy challenge to the South's professional foresters involving as it will success against the inroads of fire, insects and disease, poor cutting methods, unfavorable taxes and other problems inimical to the best interests of Tree Farming.

CONGRATULATIONS FORESTRY GRADUATES

. . . As the demand for more forest products increases each year throughout the South, foresters are faced with the challenge of providing continuous crops of quality trees for all industry.

. . . This is both a challenge and an opportunity to the profession — whether you enter into industry, government or private forestry work.

. . . We congratulate you and wish you much success!
