This Book is brought to you for free and open access by the School of Renewable Natural Resources at LSU Digital Commons. It has been accepted for inclusion in Annual Ring by an authorized administrator of LSU Digital Commons. For more information, please contact [gcoste1@lsu.edu](mailto:gcoste1@lsu.edu).

## HAVE YOU PLANNED YOUR CAREER?

Plywood is a household word, and United States Plywood Corporation is synonymous with leadership in the field of both hardwood and softwood plywoods, as well as related building products. United States Plywood has led in making prefinished hardwood plywood available in almost every economic bracket. The use of Weldwood prefinished paneling as decorative wall material for offices, public buildings, as well as new and older homes, appears to be limitless.

Sales have grown commensurately with production which, together with research and other contributions in the building materials field, has increased United States Plywood sales from \$107 million in 1952 to over \$10 million PER WEEK in 1965. The reward for United States Plywood's quality of products and outstanding service has been its growth to one of the top 175 industrial corporations in this country. Chemists, physicists and wood technologists—working in United States Plywood research laboratories—help make it possible for more than 700 salesmen and sales engineers throughout this country and Canada to offer the best choice of structural and decorative materials available anywhere to architects, industrial users and builders. Today the building industry represents a fantastic \$60 billion market—it will continue to grow. United States Plywood Corporation could help you to become a part of the growth with that burgeoning market. Write or call for an interview.

## FOREWORD

For the twenty-sixth consecutive year, the ANNUAL RING records the events of a year at the L.S.U. School of Forestry and Wildlife Management. This volume has been designed to help preserve the memories of this year's activities.

We of the staff take great pride in presenting the 1966 ANNUAL RING and sincerely hope that it brings some pleasure to each of its readers.

# DEDICATION

In appreciation for the time, interest and professional attitude that Dr. Norwin E. Linnartz has dedicated himself to for the advancement of forestry students, the School of Forestry and Wildlife Management and his profession, the ANNUAL RING staff desires to acknowledge the recognition due him by dedicating the 1966 ANNUAL RING in honor of him.

Because of his even temperament and friendly, congenial personality, Dr. Linnartz is popular and respected among L. S. U. students and faculty.

Born in Fischers (Comal County), Texas, Dr. Linnartz received the B. S. in Range and Forest Management from Texas A and M in 1953. He was granted the Master of Forestry degree in 1959 and the Ph. D. in 1961 from Louisiana State University.

Well-known to students, Dr. Linnartz has served as faculty advisor for the L. S. U. Society of Foresters (1961-62, 1962-63, 1965-66), Xi Sigma Pi (1963-64), Alpha Zeta (1964-65, 1965-66), and the ANNUAL RING (1964-65, 1965-66).

In promoting his profession Dr. Linnartz has written fourteen publications, has edited the Gulf States Newsletter of the Society of American Foresters (1962-63), and has presented papers before various soil conferences. He initiated the organization of the Southern Forestry Soils Council of which he is the Steering Committee Chairman of 1964-68. He is also a member of the Society of American Foresters, American Society of Range Managers, Soil Science Society of America, International Soil Science Society, American Society of Agronomy, American Association of University Professors, Louisiana Forestry Association, Louisiana Association of Agronomists, Society of Sigma Xi, Alpha Zeta, Phi Kappa Phi, Xi Sigma Pi, and Gamma Sigma Delta.

As the ANNUAL RING staff views Dr. Linnartz's past accomplishments--many more are predicted for his future.

# THE DIRECTOR'S MESSAGE

DR. P. Y. BURNS

Director of the School of  
Forestry and Wildlife Management

B.S., Tulsa, 1941  
M.F., Yale, 1946  
Ph.D., Yale, 1949

The faculty of the School of Forestry and Wildlife Management has completed a revision of the undergraduate forestry curriculum. The revised curriculum contains six semester hours of physics, three hours of organic chemistry, and a course in business management. We feel that the new curriculum will better prepare our students for their future work.

To have an outstanding forestry school, however, requires more than a good curriculum. A strong, well-trained, and dedicated faculty and physical facilities for them are also essential. We are not far from attaining a faculty size and quality which will enable us to carry on an outstanding teaching program. Unfortunately, we do not now have sufficient building space to meet our needs for laboratories and staff offices. The Forestry Building, designed in 1954 and occupied in 1956, provided originally for only ten faculty members and one secretary; the building now houses nine additional faculty members and three more secretaries in make-shift office space. The building was designed for only six graduate students; we now have sixty-two. Only one small lab was originally designed for research in the entire building, yet our research program has increased seven-fold in the last ten years. In short, we are using a building designed for undergraduate teaching plus a small master's program in forestry and wildlife to conduct a greatly expanded program of research and graduate education in forestry, wildlife, and fisheries. Demands for our graduate training and research results are increasing. We face the choice of either expanding our physical facilities or halting the development of our graduate education and research.

The faculty has requested the L.S.U. Administration to provide an addition to the Forestry Building containing 27,000 square feet and including modern laboratory facilities. We believe that this additional building space is absolutely essential if we are to perform the services expected of us.

I am glad to have had this opportunity to inform our alumni and students of our pressing need for additional building space. I am confident of your continued support of the School of Forestry and Wildlife Management.

*Paul Y. Burns*

MARGARET STERN

For the past ten and one-half years, Mrs. Margaret Stern has devotedly served in a secretarial capacity for the School of Forestry and Wildlife Management. Mrs. Stern, who is a native of Pennsylvania, resigned her position in January in order to move to Wood's Hole, Massachusetts, where her husband Herbert (LSU graduate-1955) has accepted a position with the Department of Interior--U.S. Fish and Wildlife Service. The staff of the Annual Ring wishes to give a special word of "thanks" to Marge for the extra work and effort she has put forth for the betterment of the School.

Sgt. at Arms - - - - -	John DeMarche	Asst. Forester - - - - -	Bill Read

The L. S. U. Society of Foresters enriches the school years of forestry students by adding to their extra-curricular activities a program with professional as well as social functions. All students majoring in forestry or wildlife management may become members merely by undergoing a one-week initiation.

This year's activities began with a welcome get-together for freshmen and transfer students. We were successful in gaining a number of hardworking, new members. The "flatheads" underwent the final agonies of initiation at our Initiation Day, which was held at Forest Park. Fellowship, good food, and "cut and leave" were the highlights of the day. A very successful Christmas tree sale was sponsored with proceeds going into a newly established self-maintaining scholarship fund. Our Annual Christmas Party was held in December at Nelson Memorial Hall.

These events are only a few of the many functions of the Society of Foresters. Other activities include the drink sales at the L. S. U. Rodeo, publication of the ANNUAL RING, the Annual Spring Party, and clear-cutting and planting an acre each year on the Society Demonstration Forest. Through these activities, L. S. U. foresters learn to work together and build friendships which will last through the years.

# XI SIGMA PI

LEFT TO RIGHT: BACK ROW: Dr. Norwin E. Linnartz, Dr. Thomas Hansbrough, Terry Clason, Don Parkman, Fred Bollin, Harold Champagne, E. L. Klein, Dr. Paul Y. Burns, SECOND ROW: Mr. C. B. Marlin, Al Tanner, Al Sullivan, A. P. LaBorde, Mr. R. W. McDermid, E. L. Hollis, Mr. Peter Fogg, R. Durien. FRONT ROW: Harry Saranthus, Harry Lewis, Thomas Keister, Gus Stacy, James Dear, Jack Mims.

Secretary-Fiscal Agent - - - - -	Gus Stacy
Ranger - - - - -	Jack Mims
Faculty Advisor - - - - -	Mr. C. B. Marlin
Executive Council Representative - - - - -	Dr. Thomas Hansbrough

Xi Sigma Pi, the national forestry honor fraternity, was founded at the University of Washington on November 24, 1908. The local chapter, Nu, was founded at the L. S. U. School of Forestry on April 13, 1940.

The objectives of Xi Sigma Pi are to secure and maintain a high standard of scholarship in forestry education, to work for the upbuilding of forestry, and to promote fraternal relations among earnest workers engaged in forestry activities.

Only forestry students of high scholastic ranking and showing promise of attaining high professional achievement are elected to the fraternity. The new members are known as "neophytes" during the informal initiation and become active members after the formal ceremony.

Xi Sigma Pi projects are the presentation of the Outstanding Sophomore Award in forestry each year and the maintenance of the forestry alumni distribution map in the lobby of the forestry building.

# PINETTES

L. to R. STANDING: Mrs. Harry Lewis, Claudia Fowler, Ann Flack, Joann Dobson, Sandra Bryan, Carolyn Banks-ton, Pat Chapman, Betsy Aycock, Marilyn Sullivan. SEATED L. to R.: Mrs. Elvin T. Choong, Barbara Boothby, Ella Price, Jane Turner, Martha Barnes, Ann Adams, Mrs. Paul Burns.

## OFFICERS 1965-1966

 Sponsors - - - - - Mrs. Paul Y. Burns  
 Mrs. R. O. Smitherman

Mrs. Burns at  
Tenth Anni-  
versary of  
Pinettes

The Pinettes is a student and faculty wives' organization founded in 1955 by Mrs. Paul Burns and Mrs. W. C. Hopkins. Since that year they have been a very active club, acting as hostesses for the Annual Alumni Wives' Coffee during Homecoming weekend and having many other activities throughout the year. The Pinettes meet once a month for a business meeting where they have a scheduled program which includes a wide range of very interesting topics. During Christmas of 1965 the Pinettes held a buffet dinner in conjunction with the Society's Christmas Dance. Included in the Spring activities are a picnic and party game night for the members and their families. All in all, the Pinettes keep very busy throughout the entire year.

A black and white photograph of a swampy forest. The scene is dominated by tall, slender trees with dense foliage, their branches and leaves creating a complex web of light and shadow. The ground is covered in water, which reflects the trees and the sky. The overall atmosphere is serene and somewhat mysterious. The text "GRADUATE STUDENTS" is overlaid on the right side of the image, centered vertically.

# QUEEN OF FORESTRY — 1966

LESLIE CHASE

JACKIE HARMON

KARLA GRANT

MARY ANN COOK

BARBARA GRESHAM

The Society of Foresters' Queen Contest is a newly established event sponsored by the club. The Queen and her court were chosen from over twenty candidates, most of whom were submitted by the fall initiates. After five finalists were chosen by a committee, the Queen was selected in a secret ballot by the entire Society of Foresters. The Queen was first announced at the Annual Society Christmas Party. The beautiful Miss Mary Ann Cook, from Grosbeck, Texas, was selected as this year's Queen. Her court consisted of four charming ladies--Miss Leslie Chase of New Orleans, Louisiana, Miss Jackie Harmon of Baton Rouge, Louisiana, Miss Barbara Gresham of Natchitoches, Louisiana, and Miss Karla Grant of Oxon Hill, Maryland.

# ALUMNI

In the following section, each alumnus is listed under the calendar year in which his degree was awarded; this year does not always coincide with the year of his academic class. Please notify the Annual Ring of the School of Forestry and Wildlife Management if your listing is incorrect.

Since the first B. S. F. degree was awarded in 1926, 910 degrees have been awarded (as of September 1965). The School has a total of 848 alumni who were awarded 757 B. S. F. degrees and/or 153 M. F., M. S., or M. S. G. Mgt. degrees.

#### 1926

BATEMAN, BRYANT A. - M. F., Iowa State, 1934; Ph. D., Michigan, 1949; Professor of Forestry, School of Forestry & Wildlife Management, LSU; 645 Leeward Drive, Baton Rouge, La.; Married, 1 child, 3 grandchildren.

#### 1927

MORGAN, SAMUEL R. - LLB, Loyola of New Orleans, 1933; President, First Nat. Bank; 1300 Rockybrook Rd., Opelika, Ala.; Married, 4 children.  
STEVENS, NORMAN G. - Agent, Standard Oil Co., Box 169, Picayune, Miss.; Married, 2 children.  
WHEELIS, WILLIS B. - M. S., LSU; M. F., Yale; Retired; 4210 Desaird Road, Monroe, La.

#### 1928

BENNETT, FRANK W. - M. F., Yale, 1931; Consulting Forester, Bennett & Peters, Inc., 4308 Government St., Baton Rouge, La.; Married, 3 children.  
BOOTH, E. W. - Address Unknown.  
STORY, HENRY DAVE, JR. - Retired from La. Forestry Comm.; 1589 Stephens Ave., Baton Rouge, La.

#### 1929

BRASHEARS, MURRAY E. - Consulting Forester, 310 South Holly St., Hammond, La.  
FOSTER, FALCON R. - Forester, Olin Mathieson Chemical Corp.; 1507 Forsythe Ave., Monroe, La.  
SYLVESTER, E. J. - Assistant Ranger, Biloxi District, U. S. Forest Service; 832 26th St., Gulfport, Miss.

#### 1930

CHESSON, MAXWELL - Chief Forester, Bel Estate - Quatre Parish Co., Box 486, Kinder, La.; Married, 4 children.

TOLER, JOSEPH BROOKS - Deceased.

#### 1932

BABIN, WILLIE JAMES - Vice Pres., Modern Tire Service; 6186 Dutton Ave., Baton Rouge, La.

DARWIN, WILLIAM N. - Vice President, Industrial Timber Products, Inc.; 320 Dixie St., Oakdale, La.; Married, 2 children, 3 grandchildren.

FORTENBERRY, E. J. - Deceased.

HOBGOOD, EDWARD C. - Box 213, Clinton, La.; Married, 2 children.

JOHNSON, M. M. - Work Unit Conservationist, Soil Conservation Service, P. O. Box 351, Henderson, Texas.

McCULLOUGH, JOE T. - Consulting Forester, 923 E. Palm Street, Ocala, Fla.; Married, 2 children.

MAY, JACK T. - M. S. F., Georgia, 1937; Ph. D. Mich. State, 1957; Professor of Silviculture, University of Ga.; Athens, Ga.; Married, 8 children, 2 grandchildren.

MILES, R. VANCE, JR. - Vice President, Gulf States Paper Corp., Tuscaloosa, Ala.; Married, 2 children.

SQUIRES, JOHN W., SR. - Manager, Forestry Division, Sears, Roebuck & Co.; 604 Webster St., Jackson, Miss.; Married, 5 children, 2 grandchildren.

TANNEHILL, GEORGE M., JR. - District Ranger, U. S. F. S., Kisatchie National Forest, P. O. Box 30, Winnfield, La.; Married, 1 child.

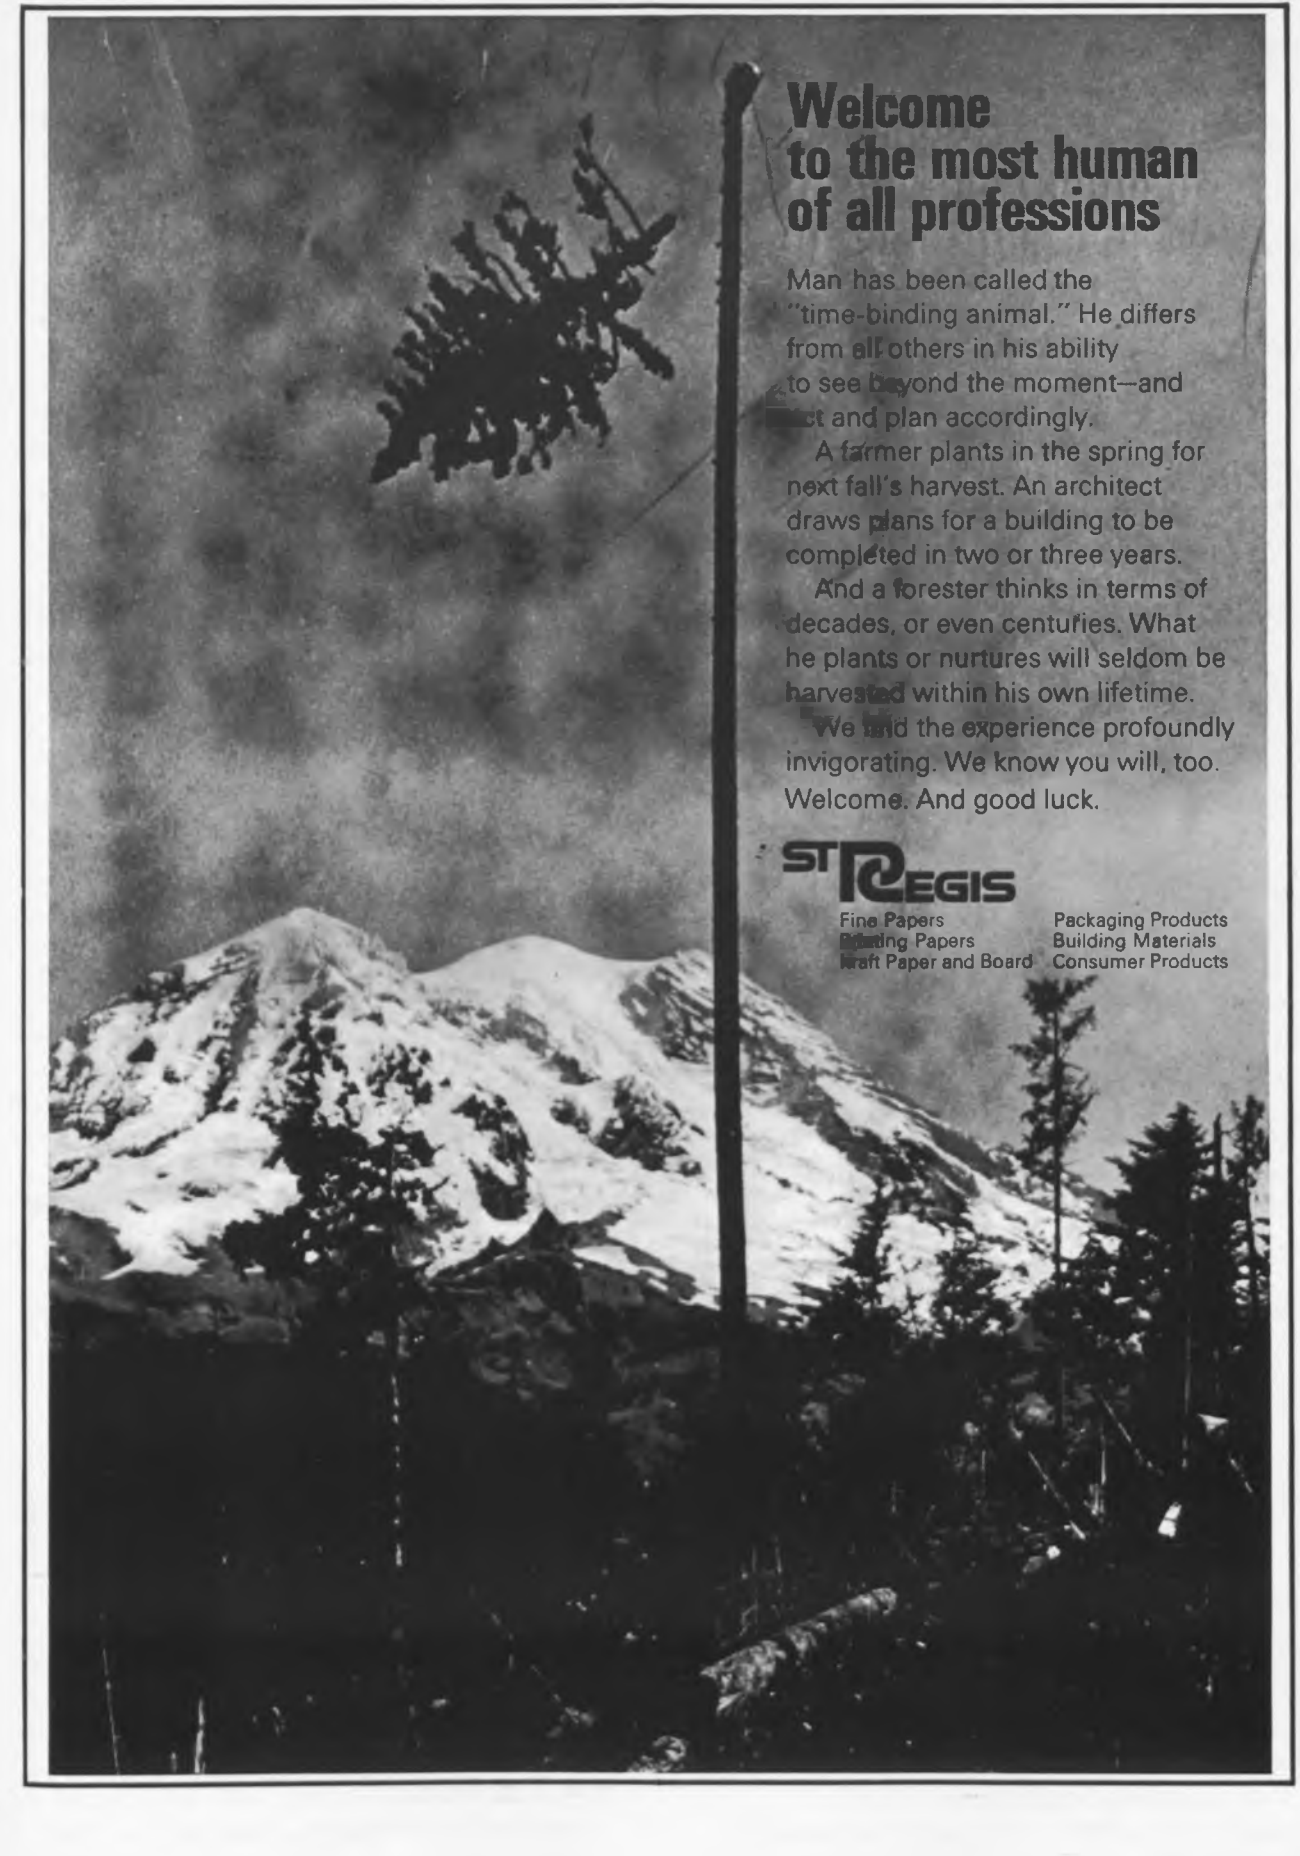

#### 1933

MATHEWS, W. P. - Reservoir Manager, U. S. Corps of Engineers, Nashville District, Federal Building, Nashville, Tenn.

SMITH, H. E. - County Surveyor, Wilkinson County, Route 1, Box 75, Crosby, Miss.

#### 1934

HERBERT, CLYDE H. - International Paper Co., P. O. Box 889, Beeville, Texas.

## Welcome to the most human of all professions

Man has been called the "time-binding animal." He differs from all others in his ability to see beyond the moment—and act and plan accordingly.

A farmer plants in the spring for next fall's harvest. An architect draws plans for a building to be completed in two or three years.

And a forester thinks in terms of decades, or even centuries. What he plants or nurtures will seldom be harvested within his own lifetime.

We find the experience profoundly invigorating. We know you will, too. Welcome. And good luck.

# YAUN LOG TONGS

This versatile, new log and pole tong is especially designed for handling the longer, heavier logs being used in modern pulpwood and lumber operations, and for any job where poles and logs require movement from one point to another. The sure, positive grip of the Yaun Log Tong is shown in the photo at left as it lifts three large logs, each about 12 inches in diameter and 20 feet long.

Now manufactured in a complete weight and size range, each is relatively light in weight, resulting from the use of high-strength alloy steel throughout, coupled with the design features inherent in all Yaun tongs and grapples which give them the built-in ability to work harder, last longer and get the job done faster.

The Yaun Log Tong is one more example of Yaun's ability to meet the changing needs of the industries it serves, and to provide the finest equipment for any materials-handling job!

## **"FORESTRY RESEARCH - A PROGRESS REPORT"**

For some years International Paper Company's forest research scientists have sought to unlock the genetic mysteries of the forest, to gain an understanding of the factors of environment and heredity that control the growth and quality of a tree.

Already we are able to manipulate the favorable factors of a tree — to develop super trees for the forests of tomorrow. To translate our research accomplishments from the forest laboratory to the field in tested, practical procedures will take time. The promise for the future, however, is clear.

International Paper Company's significant achievements in forestry research are outlined in a booklet entitled "Forestry Research — A Progress Report." If you would like to read more about what we are doing in this important field of work, a copy of this report may be obtained by request from: International Paper Company, Southern Kraft Division, Public Relations Department, P. O. Drawer A, Mobile, Alabama 36601.

# Hi Neighbors!

Since the LSU forestry camp first began on land donated by our predecessor company back in the 1920's, we have always welcomed the opportunity of being "Good Neighbors."

Crown Zellerbach recognizes the important contributions made by the LSU School of Forestry. We are honored and pleased that its students receive some of their training on our timberlands.

Crown Zellerbach's foresters look forward to working with each year's class, providing lectures and tours, and sharing of their experience.

We've enjoyed being neighbors and invite you to visit us again.

SOUTHERN TIMBER OPERATIONS

## PRUNE TREES 60 ft. UP

Sebrell #1 SAW Fits Atkins #521-L Holder  
World's Finest Curved Saw - 20" Blade

Extra thick silver steel.  
Six (6) deep gullets to an inch.  
Cuts 1/3 more than shallow 8  
gullets to the inch blade.

PRUNING SAW SOCIETY  
NO. 100-L - \$5.00

NO. 501 - WALNUT PRUNER BLADES \$1.00  
Silver Steel construction. Flat ground. Notched on end  
to fit Atkins No. 100-L holder and SEBRELL Curved Saw #1.

### SECTIONAL OR TELESCOPIC ALUMINUM POLES

A 12 ft. Telescopic Pole is	\$15.00
2-6 ft. Sectional Poles at \$5.50	11.00
A #1 Saw is	8.95
A #7 Trimmer is	18.95 (Any other length also available)
A #1 Saw is	11.95

### RECOMMENDATIONS FOR PRUNING

For Tree Pruning, we recommend a 12 ft. Telescopic Pole which telescopes from 6 ft. to 12 ft. To this pole you can add as many sectional 6 ft. poles as you may need to reach up to 60 or 90 feet.

The Telescopic Pole permits you to keep the bottom end on the ground, thereby letting the ground do most of the heavy work. As you need a 6 ft. pole added to telescopic pole, all you do is slip it over the end of telescopic pole and secure it with two bolts with wing nuts. With this type of pole, an elderly man or woman can prune tall trees with the effort required with a pole that is too short, that requires holding arms over your head.

Additional 6 ft. sections are \$5.50 each plus delivery of approximately \$4.00 out of state.

You can join 6-ft. sections together for a 12, 18, 24, 30, etc. up to 42-ft. for washing windows, walls, etc.

When ordering additional attachments for poles you have to specify type and diameter of pole to ensure perfect fit.

## YOUR GUARANTEE OF ECONOMIC PROSPERITY

Did you know that one out of every 20 workers in the United States is engaged in some kind of timber based activity? Together these jobholders contribute more than \$25 billion to the gross national product.

The American Tree Farm System, which is celebrating its Silver Anniversary in 1966, helps to sustain and expand this economic wealth. The System is one of the most important factors in maintaining a favorable balance of this nation's most valuable renewable resource.

A leading member of the System, Georgia-Pacific's dynamic conservation policy maintains that tree farming means healthy and productive forests per-

petually . . . that it provides additional benefits consistent with the primary purpose of growing trees as a crop . . . that it means greater national strength and better living. Tree farming is best for all of the people, not just a few!

For information on Careers in Forestry, write the PR Department, Georgia-Pacific, PO Box 311, Portland, Oregon 97207.

# PINE TREMONT HARDWOODS

## GUARANTEED QUALITY

from

A COMPLETELY MODERN MILL AND  
SCIENTIFICALLY MANAGED FORESTS

TREMONT LUMBER COMPANY

Selective harvesting from its approximately 200,000 acres of forest lands assures Tremont's customers of a permanent source of supply for quality products. At Tremont, growing and producing through uneven-age management guarantees a continuous harvest of forest products from pulpwood bolts to top quality poles, piling, and sawlogs.

 & Fisheries Comm., P.O. Box 426, Ferriday, La.

MR. WARREN DIETRICH--WINNER OF THE  
 ALUMNUS OF THE YEAR AWARD

# **RAYONIER, INCORPORATED**

**SOUTHEAST TIMBER DIVISION**

**Chemical Cellulose From Southern Pine and  
 Hardwood**

**Mills at Fernandina Beach, Florida and  
 Jesup, Georgia**

The cover of this year's "The Annual Ring" is "Flat Cut White Oak" WELDWOOD DESIGNER FLEXWOOD—a composite laminate of 1/85" real veneer and a non-woven fiber backing resulting in a thickness of approximately 16 mils. It is manufactured by the Flexible Materials Division of United States Plywood in sheet sizes up to 48 x 144".

WELDWOOD DESIGNER FLEXWOOD is used as a dec-

orative surface on stable substrates such as steel, aluminum, plastics, fiberglass, particleboard or hardboard. It provides product designers and manufacturers with practical solutions to design problems on such varied products as furniture, decorative desk accessories, fluorescent lighting fixtures, refrigerator doors, interior doors, automobile interiors (including instrument panels, door trim and horn ring inserts), movable partitions, aircraft interiors, bulkheads, etc.

Its companion product—WELDWOOD ARCHITECTURAL FLEXWOOD—is of the same construction with the exception of the cloth backing, which makes its overall thickness approximately 17 mils. It is primarily a wall covering and it can be applied with equal facility to flat, curved or formed surfaces.

Both DESIGNER FLEXWOOD and ARCHITECTURAL FLEXWOOD are available in approximately eighty domestic and imported woods of choice grain and figure.

For additional information, write United States Plywood, Flexible Materials Division, Box 17085, Louisville, Kentucky, 40217.
